7 **Jumbo** jumbo, roving	*none*	16 ply and up	**6 or fewer**	12.75 mm and up US 17 and up	**6 or fewer**	15 mm and up Q and up

Reading the chart

- **These are typical ranges.** The gauge in your pattern always comes first, so swatch before you swap yarns.
- **Same weight, different names.** A US worsted or aran is a UK aran and an Australian 10 ply. A US DK is a UK DK and an Australian 8 ply.

[a] Stitches over 4 in (10 cm). Knit gauge is measured in stockinette, crochet gauge in single crochet. [b] UK shops may label Fine yarn 4 ply or 5 ply. Charts also differ on 3 ply, placing it in Lace or Super Fine. [c] Lace crochet gauge is counted in double crochet.
