

Crochet Abbreviations

Written in US terms, the way most patterns are. Where a UK pattern uses a different word, you will find it in the UK column.

hdc	half double crochet	htr	tr	treble (also called triple)	dtr
inc	increase		WS	wrong side	
lp	loop		yo	yarn over	yoh or yrh
MC	main color				

Symbols in patterns

- *** repeat the steps that come after the * as the pattern tells you
- []** work the steps inside the brackets as many times as the pattern says
- ()** work the steps inside as many times as the pattern says

UK says shows the word a UK pattern uses where the stitch name changes. UK patterns name each stitch one step up, so a UK **dc** is a US **sc**. Designers can add their own abbreviations, so check the key at the start of your pattern too.
